

To make the opening

To adjust the bag opening, place fingers between the "Frame Wire" and gently mold / bend the wire outwards to form a oval / circular shape

To make to bust stand upright

1. Place your index finger in between the Frame wire & the Handle wire.

2. Bend the Frame wire to make a curve as shown

Don't be afraid to bend the wire to make the bust section stand upright

Side View

Adjust the Bust Size

At the back of the bag, push outwards the centre of the lowest point of the bust for the desired size & shape
